Numb. 1376

The Daily Gazetteer.

SATURDAY, NOVEMBER 17. 1739.

Yesterday arrived a Mail from Holland.

Petersbourg, Oct. 31. N. S.

THE Person who is set out for Constantinople with the Czarina's Ratification of the Peace at Belgrade, is M. Wiesniakow, who was formerly one Resident at the Porte. The Grand Seignior's Ratification is also speedily expected from thence.

Vienna, Nov. 11. Upon Advice that the Turks have not yet begun to demolish the Fortifications of Meadia, or at least that they went on very slowly in it, the Court has sent Orders to Belgrade, to suspend the Demolition of the Works of that Town: And some think that the Court does not intend the Demolition shall be continued, till they have an Answer from the Ottoman Porte, with Regard to the Frontiers of Croatia. The Grand Seignior's Ratification of the Definitive Treaty of the 18th of September last, arrived here some Days ago from Constantinople, where we are assur'd there were great Debates in the Divan, whether it should be ratify'd; for several declar'd for the Negative, by saying there was all the Reason that could be, to expect a Peace upon the Foot of the Treaty of Carlowitz, but the Lawyers having determin'd for the Affirmative, their Opinion was followed.

The last Letters from Hungary contain the following Fact, which, if true, seems pretty remarkable, viz. 'A General Officer who had Symptoms of the Contagion being set out from the Army for Vienna, stopp'd in a Village near Comorra, and agreed with a Surgeon to cure him of the Distemper, promising him a hundred Ducats Reward, cure or kill; he agreed at the same time that the thing should be kept secret. The Surgeon took such Care of the General, that he made a perfect Cure of him, and receiv'd the Reward that was promis'd him. Not many Days after it is the contagious Distemper broke out in the Village, and twenty four Persons died of it. It being known that a Foreigner had been there some Time, and it having been observed that the Surgeon often went to him, it was suspected that the Distemper had been brought thither by that stranger. Upon that very Suspicion, and some Tokens that have help'd to clear up the Matter, the Surgeon has been apprehended, and condemn'd to be hang'd, for having acted contrary to the Tenor of the Regulations concerning the Quarantine, and for having been the Cause that the said Village was infected.

Schaffhausen, Nov. 15. N. S. The Bishop of Basil has wrote to the Cantons of Zurich and Berne, to acquaint them of the Treaty which he has concluded with France; but those Cantons don't seem to be pleased with that Prelate, for having concluded a Treaty with a Foreign Power, without the Participation of the Helvetick Body. The last Letters from Thoulon say, that the Men of War fitted out in that Port were ready to sail in 24 Hours after they have receiv'd Orders.

Rome, Nov 1. N. S. The following is an Account of some Transactions at San Marino, since Cardinal Alberoni enter'd that Place to take Possession of it on the Part of the Holy See.

'The Cardinal, after having caused several to be imprison'd who refused to submit to the Holy See, went the 25th ult in the Morning to the Principal Church of San Marino, where the Bishop celebrated High Mass, which was sung with Musick. After the Gospel was sung, the Cardinal proposed to the whole Council, which was then assembled, of the Nobles, Merchants, and Citizens, to take the Oath of Fealty to the Holy See. John James Angeli, as the Chief Captain of the Republick, spoke first, and voted in Favour of the Holy See. M. Giangi, the Second Captain said, That as he had already sworn to maintain his Country's Liberty, he could not take the Oath to the Holy See without perjuring himself; whereupon he cry'd out, *God bless San Marino.* M. Biagio Martelli, who was newly admitted to the Council, said, That he would swear whatever they would have him swear, without any other Particulars. Jerome Gasi began his Speech with these Words; *Transeat a me Calix iste, si fieri potest*; i. e. *May this Cup pass from me, if it be possible*; and then said, I was determined at first to take the Oath to the Holy See, but now that I see the Image of San Marino crown'd, I cannot submit to the Holy See, and 'tis proper for me to keep my Faith to the Republick, *God bless San Marino.* Joseph Onufri said, If the Pope absolutely insists upon it, that I take an Oath to the Holy See, I am not averse to do it; but if the Holy Father leaves to my Choice, *Either my Country's Freedom, or Subjection to the Holy See, I swear for Liberty. God bless San Marino.* John Marino Giangi, and some others to the Number of Fourteen, voted also for *Liberty*, and all cry'd out, *God bless San Marino.* This Ceremony being ended, the Cardinal dissatisfy'd with what pass'd, gave Orders to the Soldiers that kept the Doors of the Church, not to let any of the Natives go out, and after Mass was over, he made a short Speech: *Oh! Unnatural People, you see that these Tyrants are for sucking the Blood out of your Veins, and endeavour to rout you out*; Long live the Pope therefore: *May the Fourteen Tyrants and Rebels perish, and find no Shelter in the whole Ecclesiastical State.* Then the Cardinal having caus'd Te Deum to be sung, return'd to the Palace, amidst the repeated Acclamations of *Long live the Pope.* During this, some of the Pope's Bailiffs, assisted by the Soldiers, enter'd into the Houses of such as had refus'd to take the Oath, and threw their Furniture out of the Windows; of which the Recusants being inform'd, and fearing to be clapp'd up in Prison, went towards the Evening to beg Pardon, and took the Oath of Fidelity.'

Warsaw, Nov. 7. N. S. It not being practicable to let the Russians quarter this Winter in Moldavia and Wallachia, the Veld Marshal de Munich has inform'd the Republick of Poland, that he shall be oblig'd to traverse with his Army again thro' that Country in its Way to the Ukrain; but he has engag'd to settle Matters on such a Footing, that the Inhabitants shall not be Sufferers by it. Since that the Russian Army is march'd in three Columns thro' the Territory of Latiszew, in order to come at the Frontiers of the Ukraine on the Side of Kiow.

Francfort, Nov. 19. We are assur'd, that 6000 Hessians, viz. 4000 Foot and 2000 Horse, have receiv'd Orders to be ready to march for the Service of the King of Great Britain. They write from Metz, that the Jews of that City have engag'd to furnish 6000 Horse before the Month of April, to remount the French Cavalry, and that 300000 Livres have already been advanc'd to them for that Purpose.

Gibraltar, Oct. 20. That the Spaniards make no Motion to besiege this Place, yet all the necessary Precautions are taken to prevent a Surprize. The Fortifications have been considerably augmented since last Year. All the Parapets of the Cover'd Way are furnished with strong Palisadoes; the Ramparts are faced with Stone to the very Surface of the Earth; new Counter-guards are built to cover the Curtains, and fresh Places are dug under Ground. The Horn-work upon the Hill has also been augmented with two Demi-bastions, and some new Redoubts are erected on the Sea-side. As the Garison of this Place is to be reinforced considerably, the Number of Caserns have upon that Occasion been augmented. The Arsenal is in a very good Condition, as are all the Magazines of Gunpowder. The Number of the Ships which the English had taken from the Spaniards to the 13th Instant and brought into this Port amounted that Day to 11. Among the Barrels of Powder that were in the St. Barbe, one has been open'd, which was full of double Pistoles, and a little Money-box, in which were such rich Jewels as 'tis believ'd were design'd for the Court.

Lisbon, Oct. 25. This Day Se'nnight there was one of those most terrible Executions which the Tribunal of the Inquisition calls Acts of Faith, wherein eight Men and three Women were burnt alive for Judaism. Twenty-one Men and twenty-five Women accus'd of the same Errors and other Offences, were condemned; some to perpetual Imprisonment, others to the Gallies, and others in short to Punishments of several other Kinds. The King has sent Orders to Brasil and the other Portuguese Settlements in America, to conform to the Resolution which his Majesty has taken to remain neuter with regard to the Differences between England and Spain.

Madrid, Nov. 3. By our Letters from Cadiz it appears, that an English Prize is lately brought in thither with a Cargo valued at 800000 Pieces of Eight, which is some Sort of Comfort to the Publick for the Loss of the two Caracca Ships that belong'd to the Guipuscoan Company. We hear that 4 Ships are lately brought into Bilboa from New England.

Hague, Nov. 21. The World may soon expect to see a new Crown'd Head in Europe; for we have Letters here which say, that Possession has been taken of the Island of Corsica, in the Name of the Infante Don Philip.

COUNTRY NEWS.

Gloucester, Nov 10. Letters from Tewkesbury, Cheltenham, Cirencester, Painswick, Minchinhampton, Tetbury, Dursley, Wotton-Under-edge, Sodbury, Berkeley, Winchcomb, Campden, Stow on the Wold, Northleach, Bisley, Newent and Stroud, in this County, inform us, that his Majesty's Declaration of War against Spain had been proclaimed there, with great Solemnity, by the Under-Sheriff; and that there were vast Acclamations of Joy at each Place on that Occasion, the People expecting now full Satisfaction and Reparation for the Cruelties and Depredations on the English.

We hear from Frome in Somersetshire, that on Monday the 5th Inst. War was proclaim'd there with great Solemnity. The Ceremony receiv'd an additional Lustre from the honourable and useful Society of Card Makers establish'd there, who on that Day always celebrate their Annual Feast. After hearing a loyal Sermon preach'd by the Rev. Mr. Neal, they walk'd in a regular and graceful Procession to the Market Place, attended with a Concert of Musick, and a rich Silk Banner embroider'd with Gold, display'd before them, embellish'd with the Emblems of the Trade, and this Motto, *Labor omnia vincit*. The King's Declaration of War being then read, was receiv'd with the most unanimous Applause, the Air resounding with loud Acclamations of universal Joy.

After an elegant Entertainment, the Shades of Night were brighten'd with Bonfires and Illuminations; a Hogshead of Beer was given to the Populace; and the Evening concluded with loyal Healths, British Songs, and other Demonstrations of Triumph: the whole being conducted with the utmost Order, Harmony, and Decorum.

JAMAICA RUM, at	6	9	per Gallon.
CONIAC BRANDY,	7	3	
BATAVIA ARRACK,	18	0	

The PROPRIETORS do warrant it all entirely neat, and as curious as ever was tasted; they having for many Years made it their sole Business to import and procure the Importation of the best and oldest JAMAICA RUM and CONIAC BRANDY, having settled a proper Correspondence abroad for that Purpose, and have always large Stocks by them.

Therefore as no Persons whatsoever can command their Goods from abroad on better Terms, so they are determin'd at all times to sell at the lowest Price that can possibly be afforded (dealing altogether for ready Money) nor will they vend any but what they will WARRANT neat and genuine.

To Persons of either Sex Afflicted with any Species of the PALSY, *or other* NERVOUS DECAYS.

NEVER were NERVOUS DISEASES, PALSIES, and PARALYTICK DISORDERS so frequent as of late they have been, nor have the usual Remedies been found adequate to those pertinacious Distempers: This occasioned a Physician, who employ'd his Thoughts much concerning them, to adapt a Medicine, *a Sovereign Elixir*, peculiar to, and effectual for, the Palsy, and all other nervous Complaints now reigning, which after he had experienced on vast Numbers of Persons of both Sexes, and always with surprizing Success, even so as infallibly to cure by it the Palsy, and all Paralytick Effects and Nervous Disorders, he permitted it to be made publick for a general Good, that so those labouring under these miserable Ailments, might know where to meet with a safe and most certain Cure, which it accomplishes in so short a Time, and with such Ease and Pleasure (a few Drops of it being a Dose, highly agreeable to the Palate, and comforting to the Stomach and Bowels) as is almost incredible to relate.

But the taking one Bottle of it only, demonstrates its prodigious Efficacy to every one, and the Patients soon find all Numbness, Deadness, and Shaking, or Resolution of the Nerves, as well as all convulsive, cramp-like, or painful Contractions of them, vanish and return no more; and this, though these Distresses have been of many Years standing, and whether occasioned by long Illness, fast Living, hard Drinking, or any other Cause; for it performs all that can be wish'd for in Nervous Cases, creates an Appetite, expells Wind, rectifies the Digestion, occasions laudable Chyle, attenuates the Blood and Juices, causes a free and regular Circulation of 'em thro' the Capillary Vessels, revives and increases the Spirits, warms, comforts, strengthens, and replenishes the Brain and whole Nervous System, hence the Sinews, Tendons, Ligaments, and all the enfeebled Parts are invigorated, the Limbs restored to their pristine Steadiness and Strength, and the Palsy and all Paralytick Disorders and Nervous Decays suddenly cured by it, to the Admiration of the Patients themselves, and all about them.

This sovereign and incomparable Elixir is permitted to be sold only at Mrs. Holt's, at the Cross-Keys and Star in Cornhill, near Stock's Market, at 3 s. 6 d. a Bottle, with printed Directions.
